

Design Trends 2020

What's new?

Water closet feature wall

Round framed mirrors in powder rooms and bathrooms

The floating vanity look

For Everton – there are 2 options

*Cabinetry - can create this look with a 9-10” recessed toe kick

*Plumbing Fixture suppliers - can order a pre –fab vanity with sink included

NOTE: With the floating vanity look, it is nice to add toe kick lighting as seen in picture 3

Cabinetry

- *Crisp whites mixed with either a wood/textured melamine or a dark paint color (dark blue, dark grey, black).
- *High gloss white kitchens as well, although this tends to be a bit more expensive.
- *Trends are modern, clean, simple lines with a touch of warmth and a mixture of colors and textures.
- *Flat panel and some shaker still. We are seeing more flip up cabinets and floating shelves. Simple wood hoods

Paint colours for the year 2020

Most interior designers feel grey is on its way out. They're tired of those stark and simple greys and color is coming back.

"First Light" (2102-70) is Benjamin Moore's "Color of the Year 2020". It's a soft airy hue – not too sweet. The brand describes it as "a backdrop for a bright new decade". Worth noting is that pink has become more of a mainstream color thanks to Millennial Pink. In this case, you might consider "First Light" as the new white. It's blooming with potential!

"Naval" – Sherwin Williams

"Naval" (SW 6244) is Sherwin Williams' "Color of the Year 2020". It brings navy blue into a new era. The company describes it as a deep shade that "fuses the striking and bold opulence of Art Deco with the awe-inspiring power of nature". Naval was designed to do just that, inspiring a sense of "restfulness and tranquility" in one's home, according to a press release.

Behr released "Back to Nature" as its "Color of the Year 2020" in mid- August. It's a meadow-inspired light green hue that the brand describes as "calm, gracious, and balanced, and a way to bring the outside in." Look closely at this complex color. It's a very subdued olive green. Murky and peaceful.

Vinyl Plank trend vs Hardwood Flooring

Nufloors has new luxury Vinyl plank flooring lines that are comparable in price to the Kootenay 7.5” plank hardwood lines and home owners are loving it!

Also trending is the “Aria” floor vents which can be covered with any flooring and the flush mount vents for hardwood

Carpet

We are still seeing the trend of people choosing to put carpet in bedrooms and a more recent trend towards spill proof carpet backing

Tile

- *Large format tiles for feature walls and showers
 - *Back splashes with shaped tiles are still trending
 - *Patterned tiles for feature walls and specialty flooring (for flooring options: vinyl sheets, vinyl tile and ceramic tile)
-

Lighting

*Everton is updating the old half moon flush mount to the popular LED disc light for common areas like pantries, mud rooms, hallways

LPDL LED LOW PROFIL DOWNLIGHT

LPDL™ (Low Profil Downlight) gives you all the flexibility you need during installation, especially in confined area or when facing constraints such as wood beams, ceiling joist or air ducts. The driver is mounted separately nfrom the light source which allows the luminaire profile to be less than 1" thick!
